Eric,

Attached you will find the GWERD 2012 and 2013 publications. I am still trying to verify if some of the 2012 publications supported the RAP (most are filled in but a few aren't). I will send you the updated. However, since, this is late, I wanted to get it to you.

For the 2012, I do not have the dates the documents were submitted to the Journal (that would not pull from STICS). However, if you really need those dates, I can probably go one by one and look through the files and find the dates.

Also, for the 2013, I don't have a date submitted, most are still in preparation.

Have a good weekend.
